

Kidslink Updates

An important Biblical concept that we are teaching in March is that “God can do all things”! Children will be learning a Bible verse from Matthew 19:26 which is “With God All Things Are Possible.” Some questions and themes that teachers will be talking about in the classroom for our spiritual application focus include:

- ✿ God can do things people can't do.
- ✿ Are there jobs that are too hard for us to do?
- ✿ Is there anything God can't do?

There are so many exciting Bible stories that teach us that God is much bigger than you and me. Another way of extending the Bible lessons is to have fun “hands on” learning centers that are offered in the classroom several times during each month. Bible Stories come to life as preschoolers think about the lesson while handling objects or creating art projects that relate to our Bible learning. Here's some of our lessons this month:

- Jesus calms the storm
- Daniel in the lion's den
- Jesus walking on the water
- 4 men lowering a sick man from the roof
- Paul & Silas in jail
- Feeding of the five thousand
- Man born blind
- Joshua and the walls of Jericho
- Noah
- The man who took seven baths (Naaman)
- Elisha & the widow

Music is also a part of our Bible Curriculum. Several favorite songs this month: “My God is so BIG!” and “Awesome God”.
